Education

Georgia State University | Atlanta, GA May 2030
Bachelor of Science in Computer Information Systems GPA: 3.8

- **Honors:** Georgia Student Service Award, DataSetGO: Distinguished Scholar Award, Karma for Cara Foundation Award
- **Relevant Courses:** Business & Technology, Marketing Management, Marketing & Entrepreneurship
- **Organizations**: ColorStack, HeadStart Fellowship
- **Certifications**: Microsoft AI Azure Fundamentals; Microsoft AI Business Professional; Microsoft Office Specialist (Word, Excel, Access, Powerpoint)

Technical Skills

Programming Languages: JavaScript, Python, HTML/CSS
Frameworks/Technologies/Tools: React, Node.js, Visual Studio Code, Git, PowerShell

Work Experiences

Microsoft | Discovery Intern | Atlanta, GA July 2026 - July 2026

- Collaborated with 4 Discovery interns in Microsoft's Customer Experience & Support (CE&S) organization to develop an AI-powered troubleshooting assistant using Microsoft Copilot Studio, demonstrating its integration with Microsoft Teams.
- Interviewed 3 Azure Support Engineers to identify documentation search challenges and translated feedback into features that retrieve and rank the top 3 most relevant troubleshooting articles from internal and external knowledge resources.
- Built a functional prototype that generates visual, step-by-step troubleshooting guidance to simplify complex technical information and support different learning preferences; presented the AI solution through a live demo to Microsoft stakeholders.

City of Lawrenceville Events Department | Event Intern | Lawrenceville, GA June 2025 - Present

- Developed automated reminder and progress-tracking workflows using Microsoft Power Automate and Microsoft Lists to streamline internal event planning and task management.
- Led event coordination for WellFest through the L3 program, managing artist, vendor, and sponsor outreach, and served as stage manager for 2 major city events.

AltaFuture | Founder | Lawrenceville, GA July 2025 - April 2026

- Founded AltaFuture, a registered 501(c)(3) nonprofit teaching first-generation students financial literacy through toolkits, growing to 20 members globally and a California Chapter that reached 20+ students.
- Secured a $500 grant from the Karma for Cara Foundation to fund the development of financial toolkits and supplies for the California Chapter.

Projects

Mentor Match | JavaScript, React, Node.js, Vite

- Developed a full-stack web application to streamline mentor matching for 40 fellows and 15 mentors, implementing a weighted scoring algorithm to generate the top 3 mentor recommendations based on shared interests and availability.
- Developed an interactive React dashboard featuring assignment tracking, mentor capacity enforcement, search/filtering, and CSV export functionality covering all 40 fellow records.
- Integrated frontend and backend functionality through HTTP APIs to manage mentor assignments, prevent overbooking, and successfully validate 6 core application workflows through manual testing.

TaskFlow: Task Management System | HTML, CSS, JavaScript

- Engineered a client-side task management system supporting 3 core operations (create, complete, delete) through a responsive interface with dynamic UI updates and no page reloads.
- Implemented JavaScript DOM manipulation, event listeners, and localStorage to persist task data and completion statuses across browser sessions.

Leadership & Professional Development

HeadStart Fellowship | Technology Fellow September 2026 - Present

- Selected as 1 of 50 (~2% accepted) for a semester-long fellowship focused on technology career development and leadership.
- Developing a full-stack project through training focused on data structures, algorithms, and full-stack web development.
